# TRADITION AND INNOVATION

Industrias ANJOSA has earned its reputation through a steadfast commitment to excellence, responsibility and quality, strengthening its legacy by investing in social responsibility rooted in international standards.

ANJOSA combines time-honoured expertise with optimised processes while staying true to its essence, ensuring customer satisfaction and consolidating its position within the textile sector.

Looking to the future, ANJOSA embraces advanced technologies to automate production and enhance traceability.

Innovation in sustainable materials, aligned with global ecological strategies, further boosts efficiency and environmental responsibility.

By integrating sustainable practices, the company proves that tradition and innovation can go hand in hand with respect for the environment.

# ANJOSA

## Origins

Industrias ANJOSA S.A. was founded by the Gracia brothers, originally from Banastás, Huesca.

In 1958, they launched an umbrella factory in Cornellà de Llobregat.

A natural disaster in 1968, however, forced them to return to their hometown. Undeterred, they built a new factory in Banastás, a bold initiative that not only marked the beginning of ANJOSA's journey and entrepreneurial spirit.

## Evolution

Since 1972, Industrias ANJOSA S.A. has flourished in Banastás, expanding its facilities to encompass more than 30,000 m<sup>2</sup> of production and storage space. The company has collaborated with groups at risk of exclusion from the start, reinforcing its commitment to social responsibility.

Today, ANJOSA's products are sold in global markets through major retail channels. With a foundation built on perseverance, innovative design and dedication, the company remains faithful to the principles that shaped its origins, while embracing a forward-looking vision for the future.

# ANJOSA PRODUCTS

Industrias ANJOSA offers a wide range of customisable products for indoors, outdoors, beaches and the hospitality sector.

Its portfolio includes indoor and outdoor cushions, pallet cushions for maximum comfort and fabrics for umbrellas and chairs that combine practicality with style.

The company also produces durable textiles designed for outdoor furniture and hospitality use.

All products are crafted from high-quality materials to ensure durability and comfort.

Customisation options allow designs to meet specific requirements, providing tailored solutions for every client.

Through continuous innovation, ANJOSA ensures its products withstand challenging weather conditions while maintaining a refined, elegant appearance.

# ACRYLIC

Acrylic is a synthetic fibre that blends softness with durability.

Highly breathable and adaptable to various climates, it offers exceptional resistance to UV rays and wear.

Acrylic retains its shape, resists shrinking and is impervious to chemical agents, making it easy to clean.

Perfect for both indoor and outdoor use, acrylic fabrics bring comfort and elegance to premium furniture.

# COTTON- POLYESTER

Cotton, a widely valued natural fibre, is renowned for its softness, strength and absorbency.

Highly durable, it benefits from stain-resistant properties, making it ideal for long-lasting textiles.

Cotton fabrics are eco-friendly and made from 100% recycled materials, ensuring comfort while preventing skin irritation.

Its versatility makes it equally suitable for both indoor and outdoor use.

# OLEFIN

Olefin is a lightweight, durable synthetic fabric with excellent water-repellent properties, making it ideal for use in rain, humid conditions and exposure to sea or pool water.

Resistant to UV rays and corrosion, it is also non-allergenic, eco-friendly and 100% recyclable.

Its resilience ensures long-lasting performance in diverse outdoor settings.

# TEXTILENE

Textilene, a PVC-coated polyester, is a sturdy, waterproof fabric designed for outdoor environments such as gardens, pools and beaches.

Its breathable, mesh-like structure prevents dampness and allows water to pass through easily. With exceptional UV resistance, Textilene resists discolouration and guarantees extended durability.

Lightweight and easy to maintain, it is a practical and dependable choice for the hospitality industry.

# PARASOL

ANJOSA parasol combine stylish design with premium materials to offer both durability and elegance.

Engineered to withstand UV rays and harsh weather conditions, they are perfectly suited for outdoor use.

Featuring sturdy frames and advanced fabrics, these umbrellas provide a functional and attractive solution for gardens, terraces and open spaces, delivering comfort and protection in any setting.

CUSTOMISATION

TAILORED

All fabrics can be tailored to individual needs, with options for customised designs, sizes, shapes and finishes.

Using high-quality materials, precise tailoring and careful stitching, ANJOSA ensures products that balance durability and style.

The customisation process includes creating bespoke patterns and meticulous detailing, resulting in unique and functional solutions tailored to the customer's specifications.
